- . Amazing location
- . 5 days workshop
- . Max. 4 workshops each year
- . Max. 2 participans
- . 3 to 10 wild squirrels
- . In Bispgården, Sweden

INSIDE THE STUDIO.

In this workshop, we meet  
red squirrels and birds.

The red squirrel has become iconic in  
animal photography; they make  
interesting and gentle moves.

In June and July the squirrels have  
young and can show up.  
We have an outside studio where we  
even with rain can photograph.

10 MINUTE WALK FROM MY HOME.

Beautiful nature surrounds the house. For those who are interested in forest walks, to make camp, campfires or a fresh swim in cold rivers is this a perfect location.

If you want we can use workshop time to spend for landscape or macro photography.

In the village is an restaurant, food shop, hotel and ATM.

**OBJECTS AND FLOWERS.**

Each day we create scenes where the animals come to gather or eat food. The participant can bring their own objects or take flowers from my garden.

There is also a big bath where we can photograph squirrels with water.

**OVERNIGHT STAY:**

There are many places where you can stay: hotels, campings, free in nature or in my guest house.

GUESTHOUSE WITH SAUNA

This guesthouse has a small guestroom and  
sauna.

It has a direct view att the place where  
squirrels visit.

It has electric and wifi.

For toilet, kitchen and water you use my  
house.
